

Tvheadend - Feature #72

Read network files directly instead of using muxbuilder.

2009-06-22 07:57 - Andreas Smas

Status: Fixed	Start date:
Priority: High	Due date:
Assignee: Andreas Smas	% Done: 0%
Category: DVB	Estimated time: 0.00 hour
Target version:	
Description It's much easier for ppl to add their own files without having to recompile from source (and we can add our own files as well)	
Related issues:

it could be nice to import channels from dvbscan. it wil not only import channels but it will import muxes as well.

more info about dvbsacn
