

Tvheadend - Bug #907

Consecutive recordings won't stop

2012-03-28 22:40 - Tomas Matejcek

Status:	Fixed	Start date:	2012-03-28

Found in version:	git-85e23bb		

Description

I'm using latest CVS (GIT) version of tvheadend, Build: git-85e23bb

When two recordings are planed on the same channel, and the recordings are consecutive (the second recording starts at the very same moment when the first recording should stop), tvheadend continues to record the first recording, it doesn't stop it.

Example:

recording 1: 15:30-15:50, channel ABCD

recording 2: 15:50-16:00, channel ABCD

tvheadend records:

ABCD-15.30.mkv (started at 15:30, total time recorded in this file is 30 minutes, should be 20!)

ABCD-15.50.mkv (started at 15:50, total time recorded 10 minutes, this is OK)

History

Ha! seems it was my settings of post-end on CHANNEL.

Sorry!

You can close this ticket I guess.
